Job Description.

JOB TITLE: Care Professional **REPORTS TO:** Care Supervisor/ Registered Manager

SUMMARY:

As a Care Professional, you will provide person-centred care and support to clients, helping them maintain their dignity and independence at home. You will assist with personal care, household tasks, and social activities, while ensuring that care is delivered in line with Otter Homecare's high standards.

KEY RESPONSIBILITIES:

- Person-Centred Care: Deliver tailored care based on each client's needs and preferences as outlined in their care plans.
- Personal Care: Assist with personal hygiene, grooming, dressing, and medication administration.
- Medication Administration: Safely support clients with their medication administration according to company policies and procedures.
- Meal Preparation: Prepare and assist with nutritious meals that meet the dietary requirements of clients.
- Mobility & Exercises: Help clients with mobility, safe transfers, and prescribed exercises to promote independence.
- Companionship: Provide emotional support and engage clients in social activities or accompany them to appointments and outings.
- Household Support: Assist with light housekeeping, laundry, grocery shopping, and running errands such as prescription collection.
- Observation & Reporting: Monitor changes in client conditions and report concerns promptly to supervisors, maintaining accurate records.
- Confidentiality: Ensure client confidentiality is always maintained in accordance with company policies.

WHAT WE EXPECT FROM YOU:

- Quality Care: Show dedication and commitment to providing excellent care that respects client dignity and choices.
- Punctuality & Reliability: Be dependable, ensuring timely and consistent delivery of care.
- Effective Communication: Maintain clear and professional communication with clients, their families, and the care team.
- Team Collaboration: Work well with colleagues to ensure smooth, coordinated care.
- Personal Development: Be proactive in your professional development, engaging in training and improving skills.
- Health & Safety: Follow all health and safety regulations to ensure a safe environment for both clients and care professionals.
- Documentation: Maintain accurate, detailed records of care activities and client conditions.
